

# CLASSIC SERIES

Classic Stone Mantels are a collection of exquisite mantels offered in a variety of stone finishes and colors. Options include facing, hearths (included with Builder Series kits), and overmantels. Because each Classic Stone Mantel is lightweight, preparation and installation is much easier and much less costly than traditional solid stone mantels. Each stone mantel is fire resistant and allows for zero clearance from combustible material (no space required between firebox and mantel) making it the perfect choice for gas or wood fireplaces.

VENETIAN Shown in Sahara Veined Finish with optional Regal overmantel.

Classic Series stone mantel surrounds are hand-crafted fireplace mantels inspired by timeless designs. Each mantel has variations in color and texture that captures the true essence of natural stone. You may order these mantels in a standard or custom size. Optional matching surround facing, hearths, and overmantels are available for this stone mantel in sized to fit your situation. Because the Classic Stone mantel is lightweight, preparation and installation are much easier and much less costly than traditional solid stone mantels.

## CAST STONE COLORS & FINISHES

**Natural Stone Finish** - Semi-rough "natural" stone surface.

**Honed or Polished Finish** - Hand-rubbed, rich and smooth with low sheen or elegant "semi-gloss" look.

We suggest sealing all Natural and Honed Stone mantels after installation. With the Honed Stone, this sealing will enhance the depth of the color and sheen depending on the product used. Our Honed Stone mantels are shown with Antiqua sealer. Our Natural Stone mantels shown with a clear sealer which protects the surface.

Note: All cast Natural Stone and Honed products have a degree of expected variation in shade, texture and veining. These markings are all part of the stone, add to beauty of the mantel pieces, and are to be expected. Honed Finishes not available for Builder Series Kits.
